

ACROW

“In the field, time is mission critical. Our high strength, prefabricated modular components allow for accelerated bridge construction using minimal equipment and no on-site welding.”

William Killeen, Acrow CEO

WE BRING IT ALL TOGETHER

Whether your mission is strategic or humanitarian, Acrow supports on many fronts. Using minimal equipment, our modular prefabricated steel components are easily assembled on-site. Engineered for heavy loads up to Military Load Class (MLC) 120T / 150W, our bridging solutions support both wet and dry gap applications. With training programs and comprehensive service tailored to your operational objectives, Acrow helps you rapidly deploy quality bridge infrastructure across the globe.

PRODUCTS + SERVICES

Line of Communication Bridges

Dry + wet gap bridges
up to MLC 120T / 150W

Rapid deployment bridging

Vehicular bridging
single or multiple lanes

Specialty bridging

Training + Consulting
military + humanitarian response

LEADERSHIP THROUGH PARTNERSHIP

From planning to execution, Acrow partners with military teams and international stakeholders to ensure reliable connectivity through quality bridge infrastructure.

ACROW CONNECTS YOU TO YOUR MISSION

Acrow specialises in the design and manufacture of modular steel bridging. We engineer our versatile, prefabricated components for both permanent bridges and rapid response applications such as detour, military and emergency bridging. Our comprehensive service guides you throughout the process. From design through to final commissioning, **Acrow connects you to the right solution.**

LINE OF COMMUNICATION BRIDGES

Permanent or semi-permanent support to road networks

HUMANITARIAN RESPONSE

Immediate support during crisis

TRAINING + SERVICE

Enhanced mission readiness
